Aug 27, 2021

Dear High School Parents:

This letter is to inform you of what your child needs to do if he or she is quarantined by the Health Department. Students who have been quarantined need to check their school email and google classroom after being notified by the health department. Teachers will be communicating with your child by these two means. Students will have the opportunity to join their classes via google meets in most classes. Students are required to join google meet classes, check email, check google classroom and complete all work assigned while in quarantine. Parents will receive a text from the school reminding them of what their child needs to do for school work.

Sincerely,

Jamie Tipton
High School Principal
Green City R-1
